### Connect your charger base

Plug the other power adapter that's already attached to your charger base into your mains power wall socket and switch the power on. You should ensure access to the power adapter plug is not obstructed by furniture or such.

### Registering the handset

**Important: make sure any handset you're registering is fully charged before you try to register it.**

At the handset:

1. Press and hold for approx 10 seconds until the display shows **Press & Hold Base Page Key**.

At the base:

2. Press and hold for at least 10 seconds until the indicator light on the base flickers.

Detailed information for using the handset and instructions for safety and disposal you find in the **user guide of your PowerTel 700/702**.
